

Cherry Blossom Quilt by WaterPenny.net

1. Choose and cut background fabric. 18x24 or larger - a half yard piece at 18x36 would also look nice
2. Trace shapes onto fusible webbing (I use Pellon Wonder Under). Connect branch pieces 1, 2, 3 into a single fusible webbing drawing.
3. Iron onto fabric. Be sure to sure to leave some overlap around edges of shapes to ensure that fusible webbing goes to the very edge of each shape.
4. Cut out shapes. Arrange onto fabric, Iron and quilt.
